You are encouraged to call and share the Good Word with the abortionist/mill workers. (They can't hang up on you.) Always Remember: we may be the only Christian witness they ever meet.

-IMPORTANT!!-

Please do not discard!

Take time to save a life!!

MEN, WOMEN, STUDENTS AND TEENS! Keep this list handy. While you're doing dishes, cooking, etc., CALL A MILL! Abortionists and abortion mills that advertise their "industry" in the yellow pages are extending an open invitation to the public at large, including pro-life Christians! This means that you have every legal right to call and learn more about all of the services they offer. You might want to know....

A. Abortions What kind? ...up to how many weeks? ...fetal development? ...parental consent? ...hazards? Does it hurt the baby? ...fetal disposal? does it hurt the woman?

B. Birth Control Does it work? What is the back-up (abortion)? What are the side effects? What types do they offer? If condoms don't stop pregnancy, how do they stop AIDS?

C. Sterilization Male and/or female? Is it reversible? How long does it work? Does it fail? (yes!)

D. Is AIDS Testing Offered? Will they perform abortions on people who have the AIDS virus? If not, why not?

E. Counseling What kind? ...by whom? ...and what qualifications do they have in order to counsel? Before and after? Group counseling or private? Will it cost more?

F. Do They Deliver Live Babies? Why not?

G. Is anesthesia Offered? Who administers it? Can the 'doctor' safely do both?

H. What are My (or My Wife's) Chances of Getting AIDS from the "doctor"? What about all of the other infection control standards?

I. Have Any Lawsuits Have Been Filed Against the "Doctor"? ...How many? Does the doctor carry malpractice insurance? How much is it worth? (if not, why not?)

Remember: The person answering the phone and scheduling the abortion appointments probably never sees what is going on in the back. Your inquiry will keep the images in his/her mind. If they aren't giving you all the information you feel is reasonable, press on. They should never forget the horror to which they are exposing the moms! **Take advantage of the free pregnancy tests that these mills offer.** See for yourself what kind of counseling they don't offer! While you're waiting for the test results, seed their magazines with pro-life tracts!

Make this a part of your daily life
